LIST OF ILLUSTRATIONS

FOREWORD

In presenting this printed Catalogue of Manuscripts, we are facilitating a thorough peep into the wealth of our repository housing the rich cultural heritage of Jammu & Kashmir. The need for publication of a catalogue was felt since a long time, especially by scholars of Kashmir Studies. In the absence of such informative list, the scholars and students encountered difficulty in locating references and source material for their works. This voluminous publication is meant to addresses the issue.

The collection of about six thousand manuscripts, 5506 to be precise, in our repository can easily be reckoned as one of the richest storehouses of manuscripts in the Sub-continent. These manuscripts are written in different scripts like Devnagri, Sarda, Nastiliq, Naskh and Tibetan and in languages as diverse as Sanskrit, Arabic, Urdu, Kashmiri Persian, Hindi, English, Balti, Pashtu, Turkish, Punjabi, Gojri and Brij Basha. The manuscripts are written on various materials including birch bark, cloth and handmade paper and cover a variety of subjects including archery, architecture, arts, astrology, ayurveda, drama, eugenics, grammar, history, meditation, poetry, religion and philosophy. It is a matter of satisfaction for us that these manuscripts have facilitated, in a major way, scholarly works and publications on various subjects with researchers picking the pearls of knowledge hidden in these works. Accordingly, a good number of credible research papers and publications on Kashmir have their source materials originating from these manuscripts.

As an important measure to preserve this wealth of information and wisdom for posterity, all manuscripts in our collection have been digitized and are available in DVD format. Our next step is the archival of the digitized manuscripts that forms part of our automation and networking of public libraries project initiated this year. The information about these manuscripts would then be available on the Web. Besides the electronic preservation of the manuscripts, their storage on scientific lines is also being taken care of. A multi-storied central library building at Srinagar is in the stages of completion where fire-proof storage facility for this rich treasure would be available.

It may be of interest for readers to have an idea of our repository. The collection comprises two major divisions: the Persian/Arabic and the Sanskrit. With a total of 3364 manuscripts, the Persian/Arabic Division includes

2349 in Persian, 719 in Arabic, 198 in Kashmiri, 67 in Urdu, and a few in Turkish, Punjabi, Bakha, Brij Basha, Balti, Pastu and Gojri languages. The Sanskrit Division, with a total of 2142 manuscripts, includes 1939 in Sanskrit, 8 in Punjabi, 3 in Dogri, 186 multi-language and 3 each in English and Tibetan languages. Some of the rare Persian manuscripts include *Ajaib-ul-Makhlooqat wa Gareeb-ul Moujoodaat*, a treatise on cosmology, astronomy and monsters scribed by Umad-ud-din Qazwini, *Baharistan-e-Shahi*, a 1654 AD scribed history of Kashmir, *Asrar-ul Abrar*, the 18^{th} century biography of *Rishis* of Kashmir scribed by Baba Dawood Mishkati and *Ikhlaqiat-i- Badeei*, a treatise on medicine scribed by Ali Bin Hussain Ansari Attar is 1330 A.D. Likewise, the Arabic language manuscripts of rare importance include *Shara-e-Qaseedat-ul-Amani* on Islamic Jurisprudence by Al Qari scribed in 1806 A.D., *Qarab-ud-Din* on Unani Medicine scribed by Tahir Bin Ibrahim in 1330 A.D. and *Al Mutawwal*, manuscript on rhetoric by Sad-ud-din Masood.

The multi-volume, multi-subject manuscripts composed by different authors and copied by the same or different scribes have all been bound together and indicated under the same accession number with section/volume markings as .1, .2, .3 and so on preceded by the main number. The same pattern is followed in serializing them in the catalogue. Apart from manuscripts, we have a good collection of miniature paintings also in our repository which, however, do not form part of this catalogue but a glimpse of which is available here in the form of illustrations. The Sanskrit Section has 154 miniature paintings and Persian/Arabic Section has 12 paintings in addition to the fully illustrated manuscripts containing paintings, the master pieces of Kashmiri art.

Publication of manuscripts is our mandated task. So far, we have published 112 important manuscripts in original languages, some with critical annotations. These include *Sivasutra Vimarshini* in Sanskrit, the oldest book on the Idealistic Monism or *Advaita Saivagama* of Kashmir, Kashmir Saivism, a brief introduction to the history, literature and doctrines of the Advaita Saiva Philosophy of Kashmir specifically called the Trika system, Spandakarikas with the *Vivriti of Ramakanntha* attributed by Kshemaraja to the sage Vasugupta, and *Stava-Chintamani,* devotional poem consisting of 115 *Muktakas* or independent verses singing the glory of Siva written by Bhatta Narayana. The publication of manuscripts had suffered a setback for quite a long time. However, we are pleased to have re-started this important activity with this voluminous publication, the Urdu translation of the 17^{th} century Persian manuscript '*Khawarik us Salikeen*' by Mulla Ahmad As-saboor Kashmiri. The book documents the lives and works of more than eight hundred Muslim spiritual personalities in Kashmir spanning over a period of about five centuries beginning from the 7^{th} century *Al-hijra*. *Insha Allah*, the publication of manuscripts shall be taken further in the coming months and years.

I take this opportunity to thank my colleagues for their dedicated effort in the preparation of this catalogue. Foremost among them are Mr. Munib Malik, Deputy Director Libraries & Research, Kashmir who provided guidance and help to the staff assigned the job of digging out and compiling information and Mr, Niyaz Ahmad, Senior Librarian who supervised and monitored the complex multi-lingual data entry. Mr. Zahoor Ahmad, Head Molvi (Arabic), Mr. Shabir Ahmad Sofi, Head Munshi (Persian) and Shabir Ahmad, Copyist (Kashmiri) deserve special mention for their laborious work put in by them for making this publication a reality. They were very sensitive to the importance of the work and never showed any sloth in completing the assigned task. The overall cooperation from the staff of the Research and Publication Wing of the Department is highly appreciated.

I am confident that this Catalogue of Manuscripts will prove helpful to researchers and students of Kashmir Studies in their endeavour to dig out the hidden aspects of culture and history of Kashmir. The publication shall serve as a precursor to a descriptive catalogue intended to be published later which will give, in more detail, the account of each manuscript available in our repository.

Khalid Bashir Ahmad
Director
Libraries & Research Department, J&K

Srinagar
August 17th 2011.

Persian

Faras Nama: Fully illustrated manuscript written about horses, their habits and kinds in 1873 AD

علم اخلاق معلوم باد که غرض از کسب علوم
تهذیب اخلاق محموده وعادات ستوده است
تا قتیله انسان بخصایل رضیه وشمایل مرضیه
وآداب محاورات ودستور معاملات
مهذب ومادب نشود درحقیقت انسان نیست
اگرچه بصورت انسانست مولوی معنوی
درحق مردمان انسان صورت وبهایم سیرت
فرموده بیت اینکه می بینی خلاف آدم اند
نیستند آدم خلاف آدم اند - وتهذیب
اخلاق عمل کردن بر علمست پس علم وعمل
هردو توامان اند اگر عمل بموجب علم نباشد

Ilm-ul-Akhlaq: Persian manuscript written on Ethics in 1882 AD.
